EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Curcio on 6/7/07.

2. The application has been amended as follows: Claims 1-5, 8-10, 12-17, 21 and 22 have been cancelled.

3. Claims 18-20 and 23 are allowed.

The following is an examiner's statement of reasons for allowance: Claim 18 recites the limitation of a rotary cam comprising a slotted tab with a center slot and a second slot angled relative to the center slot where the slotted tab, upon linear movement, actuates the rotary cam. The closest prior art of Cartigny '5 678 721 teaches a rotary cam but does not teach the specific structure of the slotted tab as recited herein and it would not have been obvious to one of ordinary skill in the art to make the structure as recited.

Claim 23 recites a slotted tab including a first slot and a second slot where the second slot is off axis from the center axis pin and angled relative to the first slot where the rotary cam is engaged when the slotted tab is moved in a radial, linear direction.

Art Unit: 1723

The closest prior art of Cartigny '5 678 721 teaches a rotary cam but does not teach the specific structure of the slotted tab as recited herein and it would not have been obvious to one of ordinary skill in the art to make the structure as recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
